Profile Summary :

An enthusiastic engineering student with a solid foundation in technical concepts and problem-solving skills. I enjoy working on projects, learning emerging technologies, and applying theoretical knowledge to practical applications. I am looking for opportunities to grow professionally and contribute to innovative solutions.

Education :

V.S.B Engineering College, Karur,Tamil Nadu, India (2023-2027).
Bachelor of Engineering in Computer and Communication Engineering, CGPA:7.72

S.K.V Higher Sec School,Karur,Tamil Nadu, India (2022-2023).
HSC- 72%

S.K.V Higher Sec School ,Karur,Tamil Nadu, India (2020-2021).
SSLC - Pass

Projects:

Smart Toutist Safety System

Developed a Smart Tourist Safety Monitoring System using IoT, GPS, Sensors, and Real-Time Monitoring technologies to improve tourist safety and emergency response.

Automated Student Attendance System

Developed an Automated Student Attendance Monitoring System using Python,Face Recognition, and Database technologies for attendance tracking and reporting.

Internship:

Retech Internship

Completed an Artificial Intelligence internship with knowledge in Machine Learning, Python, Data Analysis, and AI project development. Gained practical experience in model training, prediction, and problem-solving skills.

E-Soft Internship

Completed a Data Science internship with knowledge in Data Analysis, Python, Machine Learning, and Data Visualization. Gained practical experience in handling datasets, building models, and problem-solving.

Skills:

Programming Language : Java,Python(Basic),HTML, CSS

Soft Skilll : Problem solving, Logical thinking.

Software Tool : Canva,Visual studio.

Certifications:

Infosys Spring Board	: Java Foundation ,Fullstack,Python Foundation	May-2025
NPTEL	: Programming in java(Silver)	Oct-2025
CISCO	: Cyber Security	Jul -2024
ORACLE	: PL/SQL Database Programming	June-2024
